

MUHAMMAD AJMAL PM

IT Support & Operations Engineer

ajmalpm44@hotmail.com | +971 568532203 | Dubai, UAE | LinkedIn

PROFESSIONAL SUMMARY

Results-driven IT Support & Operations Engineer with 6+ years of experience delivering Level 1/2 support, infrastructure management, and business application administration in fast-paced aviation and enterprise environments. Proven track record maintaining 90%+ SLA compliance, reducing downtime by 30%, and achieving 85% first-call resolution. Skilled in Microsoft 365, Azure, Oracle, SQL, ServiceNow, SCCM, Power BI, and network troubleshooting (LAN/WAN/VPN/Firewall). CCNA and MCSE certified; pursuing CEH and AWS DevOps.

CORE COMPETENCIES

- IT Infrastructure (LAN/WAN/VPN/Firewall)
- Microsoft 365 & Azure Administration
- Incident & Problem Management (ITIL)
- Oracle & SQL Database Management
- ServiceNow | SCCM | LanDesk
- Power BI & Grafana Reporting
- Patch Management & System Upgrades
- VB.NET & Excel Macro Development
- Cybersecurity Best Practices (CEH)
- End-User Training & Documentation
- Asset Lifecycle Management
- Multi-OS: Windows & Linux

PROFESSIONAL EXPERIENCE

IT Support Specialist

October 2019 – Present

Safran Aerosystems Services Middle East | Dubai, UAE

- Delivered Level 1 & 2 IT support, consistently resolving 90%+ of incidents within SLA and minimizing downtime for 100+ end-users across aviation maintenance operations.
- Administered Microsoft 365, Oracle, SQL, Hyperion, and VB.NET applications, ensuring continuous availability and seamless business operations.
- Monitored and optimized LAN/WAN, VPN, and firewall infrastructure; diagnosed connectivity issues and reduced downtime by 30% through proactive monitoring.
- Automated monitoring and reporting workflows using Power BI and Grafana dashboards, enhancing real-time operational visibility.
- Managed helpdesk ticketing via ServiceNow, achieving 85% first-call resolution rate; escalated high-impact incidents to minimize operational disruption.
- Led end-to-end IT onboarding for new employees — device deployment, account provisioning, security access setup, and initial user training.
- Executed system upgrades, patch management, and backup solutions, ensuring full compliance with IT security policies and data protection standards.
- Integrated VB.NET solutions with SQL Server/Access databases, delivering fast and reliable data processing for engineering and QA teams.
- Designed Excel-based tools with macros and dynamic dashboards to streamline business workflows and reduce manual effort.
- Performed asset tagging, tracking, and lifecycle management from procurement to disposal; maintained accurate incident documentation to support knowledge sharing.
- Collaborated with global IT teams to standardize network architecture and improve WAN performance.
- Partnered with IT management to lead the SD-WAN infrastructure migration project on SAO, coordinating vendors, network teams, and business stakeholders to successfully deploy and integrate SD-WAN solutions.

IT Support Engineer

January 2019 – August 2019

Al Ameen Computers — Professional Project Solutions | Dubai, UAE

- Deployed and configured hardware/software for 100+ users, ensuring smooth onboarding and system integration.
- Managed helpdesk tickets via ServiceNow and Zendesk, achieving 85% first-call resolution rate.
- Diagnosed and resolved network connectivity issues, reducing downtime by 30% through proactive monitoring.
- Assisted in Windows OS upgrades, hardware replacements, and peripheral installations, improving system reliability.

- Performed preventive maintenance to extend hardware lifespan and reduce recurring incidents.

KEY PROJECTS — SAFRAN AEROSYSTEMS SERVICES

IT Infrastructure Enhancement Initiative

- Spearheaded upgrades to core LAN/WAN, VPN, and firewall infrastructure, strengthening network resilience and reducing recurring connectivity incidents across the facility.
- Standardized infrastructure monitoring and documentation practices, giving IT and engineering teams real-time visibility into system health and faster root-cause diagnosis.

Shop-Floor Visual Management Screen Rearrangement

- Redesigned and repositioned visual management display screens across the aviation maintenance shop floor, improving technician access to work orders, KPIs, and safety information at a glance.
- Optimized screen placement and content flow to cut information clutter and support faster, more informed shop-floor decision-making.

WiFi Access Control Implementation

- Rolled out structured WiFi access control policies, strengthening network security while enabling controlled, reliable connectivity for staff, scanners, and shop-floor devices.
- Improved wireless coverage and stability across maintenance areas, supporting always-on kiosks, handheld scanners, and mobile inventory tools.

Employee Onboarding & Asset Lifecycle Management Program

- Designed and implemented a structured IT employee onboarding procedure, standardizing device provisioning, account setup, and access configuration for new hires.
- Established a formal asset disposal procedure to ensure secure, compliant decommissioning of retired IT equipment.
- Built and maintained a centralized asset inventory and tracking system, improving visibility into hardware status from procurement through disposal.
- Conducted future asset assessments to forecast upgrade and replacement needs, enabling proactive budget planning and minimizing unplanned downtime.

EDUCATION

Bachelor of Technology — Computer Science & Engineering

Visvesvaraya Technological University (VTU), Karnataka, India | 2013 – 2018

CERTIFICATIONS & TRAINING

- CCNA (Cisco Certified Network Associate) — Certified
- MCSE (Microsoft Certified Solutions Expert) — Certified
- Google IT Support Professional Certificate — Certified
- CompTIA A+ — Certified
- ServiceNow | SCCM | LanDesk — Certified
- Microsoft Azure Fundamentals — Certified
- CEH (Certified Ethical Hacker) — In Progress
- AWS DevOps — In Progress

TECHNICAL SKILLS

- **Networking:** LAN/WAN, VPN, Firewall, TCP/IP, DNS, DHCP, Network Performance Monitoring
- **Cloud & Systems:** Microsoft Azure, Microsoft 365 Administration, Windows Server, Linux (Ubuntu)
- **Applications:** Oracle, SQL Server, VB.NET, Hyperion, ServiceNow, Zendesk, SCCM, LanDesk
- **Monitoring & BI:** Power BI, Grafana
- **Productivity:** Excel (Macros, Dashboards, Dynamic Forms), SharePoint
- **Languages:** English (Professional), Hindi (Fluent), Malayalam (Native)
